

CLEANING GUIDE

Timber & Veneer Doors

For product cleaning, use a 5% liquid soap and 95% water solution. Wipe down doors with a damp cloth. Finally, using a soft clean cloth, dry off. Dust with a soft clean cloth only following the grain pattern of the wood. Furniture polish should not be used.

Any cooking splashes should be wiped off immediately using a damp cloth .

All timber products are adversely affected by the environment in which they are installed due to moisture in the atmosphere. We recommend that timber products are only installed in areas that have been suitably acclimatized so that the timber is allowed to find its equilibrium moisture content.

Please also be aware when ordering additional timber doors after a long period of time after the original kitchen was fitted that a colour variation is probable.

High Gloss Painted Doors and Vinyl/Foil Doors

For product cleaning, use a 5% liquid soap and 95% water solution. Wipe down doors with a damp cloth. Finally using a soft clean cloth, dry off. Dust with a soft clean cloth.

Do not use abrasive or aggressive cleaners on any of the above products.
